

Inclusion Coffee

Range Chart

Over the years we have been successfully introducing new, cutting edge, eco-friendly papers, featuring interesting 'ingredients' that would otherwise be wasted during an industrial process. Today, Inclusion Coffee is the newest addition to our sterling collection of eco papers, and it does just that.

Made from 100% recycled fibres and used increasingly in premium packaging for luxury goods, Inclusion Coffee comes in to complement and enlarge our collection, giving our customers a paper and board range that contains 95% recycled PCW fibre and 5% Coffee waste.

Range	Shade	Grammage (g/m2)	Size (mm)	Sustainability	Packed
Inclusion Coffee		100	720 x 1020	95% FSC Recycled 5% Real Coffee	250's
		120	720 x 1020	95% FSC Recycled 5% Real Coffee	250's
		250	720 x 1020	95% FSC Recycled 5% Real Coffee	100's
